

Welcome to the 'The Liberty Speaks Book'! This book-project is a collaborative Open Source project put together by the increasing number of people who feel like they have had the immense fortune of having stumbled upon the proper understanding of economic freedom (and thus how the world works) as provided by the legendary economists known as 'The Austrian School of Economics'.

The Liberty Speaks organization seeks to educate people on the vital link between liberty and its emerging socioeconomic prosperity. We are Misesians to the core. The great free-market economist of the so-called 'Austrian School', Ludwig von Mises, believed that economic education is the key to solving mankind's problems. He passionately tells us:

*"all reasonable men are called upon to familiarize themselves with the teachings of economics. This is, in our age, the primary civic duty... Economics deals with society's fundamental problems; it concerns everyone and belongs to all. It is the main and proper study of every citizen."*

Just like the Linux operating system can be continuously improved and propagated by many people, we likewise hope that the Open Source nature of this project motivates others to both improve it and speak on its behalf thus hopefully maximizing its reach. If you would like to learn more and contribute please visit <http://www.lsn.org>.

## THE LIBERTY SPEAKS BOOK

*'Austrian Economics', Liberty and  
Emerging Worldwide Peace and Prosperity,  
NOW!*
